

DANIELA THIELE FRIENDS FOREVER

**She is the woman in your life.
She would never let you down.
She is your friend forever.
Don't you think it is time that you tell her?**

Book

What would a woman be without her friend? Who would she turn to with all her small ailments and heavy burdens, who would be there to share life's little secrets and her greatest happiness? Friends bicker and argue and still they are devoted to each other heart and soul. They might lose touch, but they will find each other again and stick together when life comes thick and fast. And the first "best friend" is a person no woman will ever forget.

There are times when you need more than one friend. And only life will decide which one is the friend to grow old with. This much, however, is

true: Without friends, our world would be poorer, colder, much harder to endure and not even half as loveable.

This inspiring, heartfelt book with its lovingly chosen texts, illustrations, thoughts and ideas touching the subject of friendship is a wonderful declaration of love for the most important woman in our lives. It is a present from the heart and a perfect way to simply tell our friend: "I am so happy to have you. Thank you for everything!"

The perfect present for all friends: Inspiring stories, thoughts and ideas about the subject of friendship between women. A beautifully designed and crafted book with many charming, atmospheric, lively pictures from the life of friends.

Whenever you doubt yourself,
when you are sad without any reason,
when you need someone to give you strength and to believe in you,
Then she will be there: YOUR FRIEND
